Your despatch No. 346 (February 3rd.  
Austrian Royal Family).

I feel that interference on the part  
of the Powers assembled in Paris is likely  
to do more harm than good.

It might however be well to ascertain  
the real facts as to what is happening by  
sending a member of the Military Section  
at Vienna to Ekartsau.

Perhaps you will cause action to be  
taken accordingly.
